

FREE TEXTURES FOR ARCHITECTURAL VISUALIZATION

Getting good quality textures AND FREE! is something not easy to find on the Internet.

So I want to share something that I met and I am sure is very useful for all architectural visualization artist.

On page of friends rendertextures.com you can find excellent textures that will be very helpful and will help you get good

results in your renders. There you can find textures by categories such as: grasses, woods, rocks and many more

I hope this contribution will be useful. Thank you very much to friends of www.rendertextures.com.
